Questions
Financial Management Business Transformation (FMBT)

FMBT Program Vision
Provide a modern integrated financial and acquisition management solution with transformative business processes and capabilities that enables VA to meet its goals and objectives in compliance with financial management legislation and directives, ultimately enhancing service to those who serve Veterans.

FMBT Program Mission
The FMBT program is increasing the transparency, accuracy, timeliness, and reliability of financial information across VA, resulting in improved fiscal accountability to American tax payers and increased opportunity to improve care and services to those who serve our Veterans.

FMBT Values

Service to Veterans
Transforming the way we respond to Veterans’ needs through accessible and transparent management systems

Innovation
Modernizing and standardizing financial management and acquisition tools enabling effective VA business processes and analytics

Data Integrity
Making VA data accurate, robust, and available in real time
Why Now?

- 30+ year old unsupported legacy system
  - VA cannot meet the federal financial regulations and mandates, including the intent of the DATA Act
  - Long standing audit findings due to inherent security vulnerabilities

- VA made two previous unsuccessful attempts to replace its legacy financial system
  - VA must succeed; the current system may not have 5 to 7 years of functional operation left

- Implementing a modern system will bring VA operations into the 21st century and improve services to those who serve the Veteran
In alignment with VA Strategic Goals, VA is transforming business operations by modernizing business systems and providing world-class customer service to those who serve Veterans.

ABOUT CX
The FMBT Customer Experience team helps prepare VA employees for iFAMS implementations. This includes organizational change management (OCM), training, and customer support activities.

SYSTEM-FOCUSED TRAINING
iFAMS-focused training will enable users to confidently navigate and complete their tasks in the new system. Sustainment training will support user refresh training, system release training, and new user training.

HYPERCARE SUPPORT
FMBT will provide Hypercare support, service desk, onsite support, quick reference guides, and establish an iFAMS community of practice.
Hypercare is the time immediately following go-live where FMBT provides an enhanced level of support to our customers

- Hypercare leverages the foundational customer support (service desk) capability
- Hypercare includes additional oversight, monitoring, reporting, and subject matter expertise immediately after Go-Live to mitigate any difficulties
- It is a partnership between FMBT and VA’s Financial Services Center (FSC) as we transition from implementation to operations

Hypercare Support

iFAMS Adoption Lifecycle

Hypercare

Stabilization

Sustainment

Service Desk Support

Hypercare
Elevated support to include increased oversight and monitoring, reporting, and onsite subject matter expertise

Stabilization
iFAMS is considered stabilized when Hypercare exit criteria are met; transition support is provided to enable system readiness for sustainment

Sustainment
Maintenance support processes implemented to sustain strong iFAMS functionality into perpetuity
## Metrics Definition

The customer experience related NCA Baseline Success Metrics are a measure of user satisfaction with the current financial systems across five different dimensions.

## Current System Baseline Values

<table>
<thead>
<tr>
<th>Dimension</th>
<th>Question</th>
<th>Percentage</th>
<th>Rating</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ease of Use</td>
<td>How easy is the current financial system to use?</td>
<td>70%</td>
<td>&quot;Easy&quot; or &quot;Very Easy&quot;</td>
</tr>
<tr>
<td>Operational Needs</td>
<td>The current financial system meets my daily operational needs</td>
<td>74%</td>
<td>&quot;Agree&quot; or &quot;Strongly Agree&quot;</td>
</tr>
<tr>
<td>Managing Funds</td>
<td>I am able to manage allocated funds efficiently within the current financial system</td>
<td>61%</td>
<td>&quot;Agree&quot; or &quot;Strongly Agree&quot;</td>
</tr>
<tr>
<td>Business Intelligence</td>
<td>How would you rate your experience with financial reporting capabilities in the current system?</td>
<td>45%</td>
<td>&quot;Satisfied&quot; or &quot;Very Satisfied&quot;</td>
</tr>
<tr>
<td>Period Close</td>
<td>How satisfied are you with period end close processes in the current system?</td>
<td>48%</td>
<td>&quot;Satisfied&quot; or &quot;Very Satisfied&quot;</td>
</tr>
</tbody>
</table>
The notional drafts of the Hypercare Dashboards below will pull in key data and metrics necessary to track progress during the Hypercare period after NCA Go-Live.

### iFAMS Performance Dashboard

</tbody>
</table>

### Customer Adoption

**NCA District Adoption:**
- # of User Logged in vs. # of Users Active in IFAMS
- # of Misc. Vendor Codes
- # of Payments Accrued Interest
- # of New Commitments
- # of New Obligations
- # of Interface Transactions Processed

### Continuous Customer Support

- **Additional Knowledge Articles:**
  - 5

- **Additional Learning Modules or Knowledge Articles:**
  - FSC: 1
  - Stafford: 2
  - Districts: 2

- **Targeted Support delivered:**
  - Onsite: 2
  - Mobile: 4

---

**iFAMS Finance Support Team Metric**

- **Average Wait Time:** 5 mins
- **Goal:** Average wait time less than 3 minutes
VA made two previous attempts to replace its legacy financial system, neither of which were successful. However, those prior modernization efforts resulted in valuable lessons learned that FMBT has factored into program operations, including:

- The Government must lead the implementation
- There must be clear lines of authority and decision making
- Buy-in can only be gained through robust change management, communication, and stakeholder engagement
- The accounting system must be tightly linked to the logistics system to ensure ordering, delivering and payments are seamless
- There must be an Integrated Master Schedule and transparency into the activities
FMBT has also identified and incorporated lessons learned since program inception, including:

- **Pre-wave initiation activities with VA organizations must be defined, conveyed, and tracked in a schedule.**
- **Admin-level roles and commitment are greater than we realized.**
- **Admins have their own set of internal workforce readiness activities.**
- **Users must have opportunities to interact with the system in advance of and in addition to formal training.**
- **Training content must be reviewed by the core audience who will receive that training.**
- **The successful adoption of iFAMS requires additional core competencies compared to FMS.**
- **The case for change comes from leaders within the Administrations.**
- **Implementation activities do not end at go-live.**
- **Aligning with Admins on metrics is critical to success.**

<td><strong>WAVE INITIATION</strong></td>
</tr>
</tbody>
</table>
| - Executive Leaders attend (as needed):  
  - Monthly Program Management Review (PMR)  
  - Monthly Executive Steering Committee (ESC) | - Begin regularly attending Weekly Program Advisor Meetings  
- Participate in architectural roadmap discussions  
- Participate in ACS efforts | - Stakeholders begin to attend:  
  - Familiarization Sessions,  
  - Town Halls | - Customer and FMBT Joint Activities:  
  - Develop Project Charter, Scope, etc.  
  - Identify needs for planning phase that will inform IPS  
  - Identify initial stakeholders for analysis |
| **Administrative/Staff Office** |  |  |  |
| - Super Users/SMEs participate in program enterprise-level activities (e.g., testing, trainings)  
- General program information is gained from FMBT public SharePoint, newsletters, etc. |  |  |  |
| **FMBT Program Staff** | **Identify program POC for customer outreach/questions**  
- ACS | **Identify Admin/Staff Office Rep(s)**  
- Begin recurring touchpoints  
- Begin Architectural Roadmap Discussion  
- ACS | **Coordinates planning session & wave summit prior to wave initiation**  
- Establish program specific meetings or activities |  |

<td>Testers</td>
<td></td>
</tr>
<tr>
<td>Staff</td>
<td>Other Stakeholders</td>
<td></td>
</tr>
</tbody>
</table>
Lesson Learned: Admin Readiness

- Admins have their own set of internal workforce readiness activities
  - Customer activities that drive readiness must be tracked in an IPS
  - In the same way, service providers must also track their individual readiness activities
Lesson Learned: System Interaction

- Users must have multiple opportunities to interact in the system in advance of and in addition to formal training.
- Interactive System Reviews enable VBA GOE staff to perform common tasks in the iFAMS sandbox.
Lesson Learned: Training Materials

- Training content must be reviewed by the core audience that will receive that training
- NCA established Post-UAT Engagement (sandbox) Sessions to gather input from field level staff on training materials
Lessons Learned: Core Competencies

- An effective financial transformation is not just about adopting iFAMS
  - Core competency is key to VA’s financial management modernization
  - Encourage attendance to Federal Financial Management training and other core competency training beyond what is offered by FMBT
Lesson Learned: Case for Change

The compelling case for change ultimately comes from leaders, supervisors and SMEs within the Administrations and Staff Offices

- Staff want to know from within their own organization why decisions are made, processes are changed, etc.
- We must be cautious in presenting iFAMS benefits when employees may not perceive it as an improvement

It is advantageous for Administrations to lead their own communications with program assistance
Lesson Learned: Partnership does not end at go live

- Implementation activities do not end at go live – they continue through the Hypercare phase
  - The FMBT program and O&M teams are tightly integrated
  - Customers are key participants
Customer Experience Metrics
Lesson Learned: Wave-Level Success Metrics

Aligning with Administrations on metrics has been critical to success

- Wave-level Success Metrics are:
  - Customer strategic goals for the wave
  - A mechanism for comparing pre and post go-live performance
  - Milestones enabling the program to achieve its longer-term strategic goals

Timeline of Wave Events

- **STEP 1**: INITIATION
  - Define Wave-level Success Metrics

- **STEP 2**: PLANNING
  - Capture current state baseline metrics

- **STEP 3**: PRODUCT

- **STEP 4**: DEPLOYMENT
  - Measure post-go live Success Metrics and communicate impact to stakeholders

- **STEP 5**: HYPERCARE

Lesson Learned: Wave-Level Success Metrics

Aligning with Administrations on metrics has been critical to success

- Wave-level Success Metrics are:
  - Customer strategic goals for the wave
  - A mechanism for comparing pre and post go-live performance
  - Milestones enabling the program to achieve its longer-term strategic goals

Timeline of Wave Events

- **STEP 1**: INITIATION

Organizational Change Management & Training Activities for NCA

Over the last 18 months, we engaged end users through various channels and platforms to gather feedback and to build their knowledge and familiarity with the iFAMS and underlying processes.

**20** Site visits conducted with hundreds of end users from across NCA. Site visits were conducted both in-person and virtually and occurred in a variety of venues, including district conferences, district offices, and select national cemeteries.

**12** Interactive Process Reviews and System Reviews introduced iFAMS and walked through some of the key changes to processes and functionality with end users from across NCA.

**13** Change Champion Network Meetings were conducted with over 50 end users from across NCA’s districts and offices to discuss upcoming activities, increase awareness, and encourage two-way communication.

**11** Get iFAMS Ready Videos reviewed changes in processes in the new system and provided a system demonstration for key functions in iFAMS.

**37** Desktop Guides (12), Quick Reference Guides (16), iFAMS Collateral documents (9) were developed to further support end users as reference material during training and post Go-Live.

**52** iFAMS System Training classes held to train NCA central office and FSC staff based on their roles in iFAMS.

**89%** Overall Training Satisfaction Score for iFAMS system training conducted to date.
## Organizational Change Assessment #2: NCA/VBA Comparison

iFAMS System Training Survey Results

iFAMS Training by Percentage

- The objectives of the training event were clearly communicated: 92% Strongly Agree/Agree, 2% Neutral, 6% Disagree/Strongly Disagree
- The training event length and pace was appropriate: 91% Strongly Agree/Agree, 2% Neutral, 7% Disagree/Strongly Disagree
- The training methods used (lecture, files, exercises) positively enhanced my learning: 90% Strongly Agree/Agree, 3% Neutral, 7% Disagree/Strongly Disagree
- The training content was clear and understandable: 90% Strongly Agree/Agree, 3% Neutral, 7% Disagree/Strongly Disagree
- Course exercises were relevant and useful: 88% Strongly Agree/Agree, 3% Neutral, 9% Disagree/Strongly Disagree
- Performing exercises throughout the course reinforced my knowledge and understanding of iFAMS: 83% Strongly Agree/Agree, 4% Neutral, 13% Disagree/Strongly Disagree
- I could successfully complete the exercises following the instructions provided in the materials: 84% Strongly Agree/Agree, 2% Neutral, 14% Disagree/Strongly Disagree
- Overall, this training event increased my knowledge and comfort level with iFAMS: 88% Strongly Agree/Agree, 5% Neutral, 7% Disagree/Strongly Disagree
- Overall, I am satisfied with this interaction with FMBT: 89% Strongly Agree/Agree, 3% Neutral, 8% Disagree/Strongly Disagree
- I found this interaction to be a worthwhile use of my time: 87% Strongly Agree/Agree, 3% Neutral, 8% Disagree/Strongly Disagree

Legend:
- Strongly Agree/Agree
- Neutral
- Disagree/Strongly Disagree
Hypercare Activities for NCA
